

RENCE JIO SMITH D. BAL-OT

Junior Software Developer

+63 953 427 1345 | rence.jio.smith@gmail.com | Brgy. Licaong, Science City of Munoz, Nueva Ecija

OBJECTIVE

BSIT specializing in Systems Development, from Central Luzon State University (CLSU), seeking a Junior Software Developer role to apply knowledge in building practical, real-world systems. Passionate about collaborating in team environments, contributing innovative ideas, and developing reliable, efficient, and user-centered applications. Eager to learn from experienced developers and continuously improve skills while delivering meaningful value to the organization.

TECHNICAL SKILLS

Programming Languages: Python, PHP, Java, C, HTML5, CSS3, JavaScript

Frameworks & Libraries: Django, Laravel, Spring Boot, React, jQuery, DataTables, AJAX

Databases: MySQL (database design, normalization, relational modeling, complex queries)

WORK EXPERIENCE

Associate Software Engineer — Accenture

- Working as a Full Stack Java Developer, building web applications and RESTful APIs with Java and Spring Boot, and responsive front-end interfaces with React

PROJECT EXPERIENCE

Software Developer — Capstone Project (GIFT Corp. Inventory Management System)

- Developed and deployed a full-stack Django web application featuring real-time inventory tracking, automated alerts, and interactive warehouse mapping
- Implemented centralized item request workflows, analytics dashboards, and role-based access for multi-department operations
- Designed MySQL database schema with data visualization using HTML/CSS/JS, Django, Chart.js, SweetAlert2, Git/GitHub, and Figma

Software Developer — DotUni CMS (OJT Project)

- Developed a Laravel-based Content Management System with an AdminLTE dashboard for managing university website content including news, galleries, and other administrative modules
- Implemented role-based access control (Admin, Editor, Publisher) with secure authentication and CSRF protection, plus AJAX-based CRUD operations with DataTables integration (search, sorting, pagination)
- Followed MVC architecture using Laravel Blade templates and maintained codebase via Git/GitHub

Software Developer — Attendance Monitoring System (Julia Ortiz Luis National High School)

- Developed a native PHP/AJAX web application with role-based access for admins, teachers, and students, featuring attendance tracking, student/section management, and interactive dashboards using MySQL and Chart.js
- Managed version control via Git/GitHub and prototyped UI with Figma/Canva

EDUCATION

Bachelor of Information Technology — Central Luzon State University (CLSU)

2022 – May 25, 2026 | *Cum laude*

CERTIFICATIONS

AWS Academy Graduate – Cloud Foundations Training Badge

October 27, 2025 | Amazon Web Services (AWS)

Data Privacy Act of 2012 Seminar

September 11, 2025 | Completed seminar on personal data protection, privacy compliance, and best practices for handling sensitive information.
